DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-5, 7-10, and 12-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, the claims are rejected for the following reasons:

The independent claims fail to set forth what structure of the bearing plate and bracket allows the bracket and bearing plate to be adjusted in relative vertical positions a vertical direction while yet being fixed to each other.

Dependent claims not specifically mentioned are rejected as depending from rejected base claims since they inherently contain the same deficiencies therein.

Allowable Subject Matter

2. Claims 1-5, 7-10 and 12-14 appear to be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

3. Applicant's arguments, see pages 10-13, filed October 23, 2008, with respect to claims 1-5 and 7-10 have been fully considered and are persuasive. The rejections under 35 USC 102 and 35 USC 103 of claims 1-5 and 7-10 have been withdrawn.

Conclusion

4. In view of the new grounds of rejection, this Office action is made non-final.

5. Applicant is duly reminded that a complete response must satisfy the requirements of 37 C.F.R. 1.111, including: "The reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references. A general allegation that the claims "define a patentable invention" without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section. Moreover, "The prompt development of a clear Issue requires that the replies of the applicant meet the objections to

and rejections of the claims." Applicant should also specifically point out the support for any amendments made to the disclosure. See MPEP 2163.06 II(A), MPEP 2163.06 and MPEP 714.02. The "disclosure" includes the claims, the specification and the drawings.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Various prior art disclosures teaching features similar to those disclosed and/or claimed are cited for their disclosures.
